PAKISTAN ENTERPRISE LOGISTICS INCIDENT REPORT

=====

Generated: 17-May-2026

Operations Intelligence Division

SECTION 1 — PORT DISRUPTION

Karachi Port operations experienced labor strike activity causing severe cargo congestion.

Estimated delay: 48–72 hours.

Affected categories:

- Medical supplies
- Fuel shipments
- Textile exports

SECTION 2 — WEATHER DISRUPTIONS

Heavy rainfall near Sindh transport corridors delayed freight movement by 14 hours.

SECTION 3 — SUPPLIER CONFLICTS

Supplier Alpha reported dispatch confirmation while Islamabad Warehouse recorded zero intake.

Potential contradiction severity: HIGH.

SECTION 4 — CUSTOMS CLEARANCE DELAYS

Industrial lubricant containers remain held at customs inspection.

Financial exposure estimated at PKR 18.4M.

SECTION 5 — FUEL SHORTAGES

Fuel shortages across Punjab reduced outbound fleet availability by 37%.

SECTION 6 — EXECUTIVE SUMMARY

Operational Risk Level: CRITICAL

Recommended Mitigation:

- Reroute high-priority medical cargo
- Increase emergency stock thresholds
- Enable supplier redundancy
- Escalate customs resolution requests
